

Women's day Report

Every woman's success should be an inspiration to another. We are strongest when we cheer each other on.

The underlining objective for this celebration was based on the principle of women standing up for women in highs and in lows.

So to celebrate the resilience, strength, and beauty of women, Paripoorti cell celebrated International Women's Day for the faculty of the college.

The program was conducted with the objective of recreation for the teachers, as an escape from their daily busy routine. The program was organized by volunteers from BA LLB and LLB. The event started with an address by the Paripoorti Cell representative and was later followed by an enjoyable fun activity for the teachers wherein the entire staff played games and had a jolly time.

Asst.Prof Saurabh Jadhav addressed the gathering with his very heartfelt speech. He shared his personal experience of the impact women has had on his life, right from his mother being the most important emotional support to his friend teaching him and grooming him overall in life. The speech ended by a very creative note on the statement that if Pune would have a gender it would be a woman due to the affection, care and homely vibe it gave him just the qualities woman possess.

Asst. Prof Sandip Borse was the second speaker in line to address the gathering, being a sociology professor, he explained the role of society in general in regards to women and the whole modern notion of celebrating women's day based on the idea of empowerment but in reality, we need to acknowledge the women as basic human beings and respect their individuality. This will in turn allow the women to live a peaceful life. The main issue highlighted that women's empowerment doesn't just need men to improve their views about women but women should stand for other women too in order to eradicate gender biases.

The eventful day for all the faculty ended with cake cutting celebration and souvenirs of rose and personalized messages for every teacher making it a perfectly happy day.
