Considering this importance of mentors, our college started a Mentorship Programme since 2012. A college requires best studying environment which is possible not only with co-operation between students and staff but also amongst junior and senior Students.

Following are the main aims of this programme:

- Briefing them about the activities of the college and thereby encouraging them to participate.
- To provide necessary guidance for examination.
- Guiding them for the issues like accommodation, conveyance, food, etc.
- Suggesting and clarifying their doubts relating to career, diplomas, seminars and internships.
